**In the Matter of the Nebraska )  
Public Service Commission, on its )  
own motion, to investigate issues )  
related to the current state of )  
landline and enhanced wireless )  
911 service and the means to )  
ensure statewide access to landline )  
911 and enhanced wireless 911 )  
service )**

**Docket No. 911-014/PI-99**

**COMMENTS OF SPRINT CORPORATION**

In accordance with the Order Opening Docket entered June 28, 2005, Sprint Corporation, on behalf of its wireless division, provides the following comments. Sprint is an active participant in enhanced 911 deployment in Nebraska, as well as nationally. In these comments, Sprint will not address each issue listed in the Order Opening Docket, but will provide information on select issues.

**A. Current status of enhanced wireless 911 throughout the state.**

Attached as Exhibit 1 is a spreadsheet reflecting Sprint's wireless enhanced 911 deployment in Nebraska as of June 30, 2005 as filed with the Federal Communications Commission. Sprint supplements that Exhibit by noting that it deployed Lincoln – Lancaster 911 on July 13, 2005. Accordingly, Sprint reports that it has deployed enhanced 911 everywhere it has been requested in Nebraska except for the request that it received on June 29, 2005 from Douglas County for Phase II.

Sprint is working with Douglas County regarding the Phase II implementation process and it is Sprint's understanding that this will be the first wireless Phase II deployment in the state of Nebraska. Sprint began selling GPS handsets in 2001 and has deployed the network systems necessary to support Phase II service.

**B. Reimbursement of the costs of wireless service providers.**

Sprint receives reimbursement from the Nebraska fund for its Phase I costs in accordance with previous orders from the Nebraska Public Service Commission. In accordance with these orders, Sprint submits its invoices and supporting documentation on a quarterly basis to 14 Nebraska counties. At this time, Sprint does not plan to seek reimbursement for its Phase II deployment costs.

Dated: August 12, 2005

Respectfully submitted,

SPRINT CORPORATION
